

Again Congratulation and More Than that.

It was not easy to watch from Europe but more easy to see its outcome and thank you for ALL ETHIOPIANS!!!!!!! (Administration Regions).

Thank you Ethiopian people, you have said No1 for the problem makers International agencies who had plan to make confusion for our innocent and traditionally heroic people, who can say always no for enemy's who were and are still trying to create problem for such multiethnic nation -you have said NO like yesterday and Thank you just being a normal person of Ethiopia without any political responsibility.

Yes today like yesterday, the Ethiopian people can identify their enemies and friends, their development and devastations, in general their advantage and disadvantages. THANK YOU as an individual who seeks peace and development for beloved Ethiopia!

You made shame for enemies and so called human right principle political game makers. Even if you have patience and prudence not to expel them from your country, just you examined them and ignored them as they are to go back to their home, from where they came to find a crack among our unique nations, nationalities and people 's of Ethiopia.

It was said “---The statement released by HRW on May 24,2010 titled “Government Intimidation Undermines Poll” is nothing but a display of uncontrollable rage by HRW as the natives of Ethiopia shocked it when they rejected an attempt by foreigners to anoint a king over them. By releasing its statement, even before the indelible ink on the fingers of the Ethiopian voters is dry, HRW displayed it's despise to the intelligence of the Ethiopian people to elect a party of their choice and their courage to fight against colonization and oppression”. Absolutely I can Agree with this reality.

The just fare and free electoral victory concluded 2010 Ethiopian election had 32 million registered voters, 43,000 polling stations, 440,000 election officials and independent local observers (an average of over 10 people per a polling station) and 230 European and African observers, according to the report of the Ethiopian, Addis Abeba written a real report from home.

May 23/2010 is a new renaissance strategy outcome modern Ethiopian progressive history and it should be remembered as a golden historical day, wherein the people of Ethiopia in unison have declared to follow the footsteps of past generations who have stood tall by subscribing to

independence, freedom and sovereignty, and adding yet another shining victory of democracy, and development through the peaceful expression of their will accentuated by the vote they cast.

The fourth Ethiopian national and regional elections have indeed demonstrated to the world, the political maturity and the ever-burgeoning democratic culture, that defines the Ethiopian people, who spoke in one word for peace and unity with diversity that reflects a new and a higher level of progress.

We members of the Ethiopian Diaspora domiciling in the US, would like to seize upon this unique watermark in the startling history of our nation, to hail and congratulate the 32 million strong citizens who went to the polls and the entire Ethiopian people at large, contesting political parties, and other stake holders for a job well done. It remains to be a genuine and civilized norm for all to honour and respect the highly valued popular verdict of the electorate.

What is going on the VOA office and its surroundings?

Peace of paper written by A. Hagos Woldu, can be found in the Google search: hagosw@yahoo.com, in July, 2009 was not without understanding the political situation of our home as a political science, and social science student from, Rome, Italy.

Yes the paper mentioned that therefore, for this unique and historical nation is facing many terrorism action internally and externally. I would like to contribute from my side not by gun but by pen to fight any terror action can disrupt any action of development and peace to my beloved mother land ETHIOPIA. This responsibility is not limited only for police of the country. For the security we are all to be police and soldiers to protect from external invaders like what had our fathers and mothers years and years ago.

Absolutely I feel joy and happiness the understanding of Addis people about EPRDF Government devotion to peace and development of Ethiopia. Because this government leadership policy has got gate to Ethiopian new mode of civilization.

A federation consist of nine-states with considerable autonomy were established and the first multiparty elections were held in 1995. The distinct regional states are 9 regional linguistic-based states (kililoch,

singular - kilil) and 2 self-governing administrations (astedaderoch, singular - astedader); Adis Abeba (Addis Ababa), Afar, Amara (Amhara), Benshangul Gumuz, Dire Dawa, Gambela Hizboch (Gambela Peoples), Hareri Hizb (Harari People), Oromiya (Oromia), Sumale (Somali), Tigray, Ye Debub Biheroch Bihereseboch na Hizboch (Southern Nations, Nationalities and Peoples).

Yes against the so called HUMAN Right group , the Ethiopian multi ethnic and pluralistic language speaking people about 84 languages has got ONE SOUND TO INVESTIGATE WHO IS REAL THAN WHAT IS REALITY! This reality that they have experienced since 1995 constitution, which is guiding the country in the Integral development .

Ethiopians are the masters of their destiny. They have exercised their right by casting their vote to the party of their choice in the privacy of the voting stand.

Again I wish to Congratulate Ethiopians for holding an exemplary election and making history. They have concluded an election with 32 million voters at 43,000 polling stations without a single violent incident.

I have to tell the one who knows better than me but always to say your feeling whatever it is negative or positive is given to us by EPRDF government first time in Ethiopian history and to use it this opportunity through passing my recommendation to all Ethiopian responsible carriers of public services in all level from Kebele level to Federal level:

1. Continue to respect more and more the civilians even more than that you are doing,
2. Respect each other and find solidarity by feeling the responsibility you have got from the people.
3. Make shameful the HRW group , who has tried to create problem for the Ethiopian civilians through yourself by justification of reality and free election outcome achievement for the development of nations, nationalities and peoples,
4. You have special responsibility in the next five years for the termination of Ethiopian history forever and ever amen!
5. Finally I am sure of these and more than that and I will do what I can from my side.

THANK YOU AND WE FEEL PROUD OF EPRDF GOOD GOVERNANCE AND ETHIOPIAN HEROIC PEOPLE WHO KNOWS WHAT IS SEL DETERMINATION SINCE MANY DECADES!!!
God bless you!
