

BEIZA HIZBINETU-For the freedom of their People

I WILL NEVER FORGET THEM

And the blood of our fallen heroes has not even dried yet. Yes, the blood spilled has not dried. And the family of the fallen heroes and heroines are in the centre of development of Ethiopia and its renaissance. Yes they were fighters and freedom brought heroes. They had no proper food and drinks, with empty stomach that they were crossing Guna mountains and Marsa flat endless land. Yes they were crossing Debretabor and the flat land of Showa from different directions. I remember our Heroes, when the boys are speaking and talking a lot in the well prepared saloon and offices today.

Yes they were with empty stomach and drought mouth that they were died, and brought victory for all the today's people of Ethiopia. I can say without any shame and afraid the prod that I feel and assimilate because of our heroes.

Hingidu-who were very concrete in his objectives to make fall down the dictatorial and authoritarian regime of communist led derg. They were told Shifta and not even as a normal Guerrillas. But they are the true human beings who fought and shed their blood for the love of **unity, fraternity and equality of all Ethiopian multiethnic society.**

Yes all the guerrillas, were like what the current Ethiopian Defense Forces are doing? What makes them different is only with empty hand and stomach that they have started and the only the thing that they had -very strong confidence of victory that will come and Yes their dream were fulfilled with extraordinary very short

period of overcoming the African largest and strongest warrior military campaign of derg.

Tell the people of Tigray and Ethiopia what "wefri timali" was?

- What was "wefri Hayelom" all about?
- Was it so that the Merrara and Merirrs on the chair to say like that and this?
- Was they occupied in Merragna or in Marsa?
- He was never been in both of those memorial heroes blood washed sites?
- Aha! Aha! Tel him shut up or correct your physical in to fiscal! Because:
- How can I forget those heroes from female to mail?
- How can I forgot from Marta primo martyred to Hayelom then to Iyasu Berhe?
- Watch out all comrades from last to list, from small to elder!
- Say no like yesterday but forward with development and watering their bones for the plantation of trees and fruits that will feed the mass of Ethiopia.

Their Yesterday Objectives are our today's responsibility and accountability and we have Hidri!, we will not forget their bloodshed for all of us for our **liberty, unity** and **equality**.

Conclusion!

Do not consider you any different than the instrumental of the Mengistu regime which killed my people. I am sure - if you get an opportunity, you will never hesitate from killing my people. The good thing is Ethiopia has reached a stage of no return to the old brutal regime where thousands of innocent Tigrians and other minority Ethiopians used to be massacred in different prisoners and red terror action.

The people of Tigray's advance guard political and civic organization, the TPLF has always been a progressive institution that stood for the inherent right of the people. It stood for social justices and its members often gave their lives so that others could live free. We will never forgot and handover this marvellous and precious blood paid FREEDOM; UNITY and EQUALITY. Yes they died for these and for the development of Ethiopia.

Notice!

Mugulat Terrara and Guna terrara two of many noticeable places of Ethiopia martyrs bloodshed areas! All young generations including myself we have recommendation not to retreat from such opened endless struggle of democracy, unity, fraternity and equality for the common good of ETHIOPIA.

አይረሳልሁን!

Eternal glory to our martyrs!
