

At this moment and time, I am so shocked and angered
Why would anyone wish to harm, the icon figure of The GERD?
Is this the 'new Ethiopia', where a hero left to be murdered?
Why was he left on his own, why was there no guard?

Simegenew Bekele, the image of Renaissance Dam?
Who took his young life, how did that come?
Who is responsible for this heinous crime?

Was no one suspicious? was no one aware?
No CCTV, when he was killed there?
Where the criminals hiding? How did they dare?
In a broad day light at Meskel Square?
We need an answer that is just and fair!

Who is responsible for the lack of moral guide?
Simegenew Bekele left to work in the morning with grace and pride
How did they kill him where did they hide?

GERD is at risk, Ethiopia's hopes are in tatters
Everyone's soul is bleeding; until you punish these nutters
Ethiopia lost the best role model, Simegenew the Engineer
However, his name and work will live, forever and ever

His infectious smile, his bright cheerful face☺
Now he is gone, who would take his place?

People are demanding justice without violence and agro
While our brother rests in peace, we need justice for our Hero!
