March 28, 2020

We are writing to announce our participation in the response to the COVID-19 pandemic, which has spread globally, particularly in North America. The outbreak of the novel coronavirus (COVID-19) has caused extreme concern and has led to widespread illness and death. It has rapidly spread in Africa, Europe, and North America, causing lockdowns and border closures, and resulting in massive economic impacts.

The COVID-19 pandemic has also placed a significant burden on communities that are already facing challenges. We are calling for support and assistance to help the most vulnerable communities cope with the pandemic.

The Tigray Development Association of North America (TDA/NA) is committed to supporting the people of Tigrai who are facing the crisis. We are working closely with local organizations in Tigrai to ensure that help reaches the people who need it most.

The TDA/NA is working to provide essential supplies, such as food, water, and medical equipment, to those in need. We are also providing financial assistance to families who have lost their livelihoods due to the pandemic.

The TDA/NA is committed to helping people navigate this unprecedented crisis. We are calling on our community members to support our efforts in whatever way they can.

Thank you for your support and for your commitment to helping those in need.

Sincerely,

[Signature]

TDA/NA Board of Directors
