The extremely sad news of our hero Iyasu Berhe's death is something that we can still hardly believe and it has been impossible to put in words how we feel. Tegadalay Iyasu Berhe was a man of principle who himself associate with all types of society, as a farmer, fighter, musician etc. He has scarified his life working for his people and died while he was fundraising for his people.

Tegadalay Iyasu Berhe has taught us a lot of things and we young Tigrean students will follow his footsteps and push all forward what he started and was thinking to do. He is the symbol of unity, commitment and he has left all theses assignments for us.

Moreover, his death has a special message to all of us that he died while he was in a fundraising program for our people and hence this will be a big lesson to learn from him.

The loss is no doubt great and irrecoverable, but Iyasu Berhe has accomplished a lot of novel works for which he will be remembered for ages by all Ethiopians and particularly by all we Tigreans.

We Tigrean students who are currently studying in Europe would like to express our deepest sympathy in the tragic death of our hero, Iyasu Berhe and by this circumstance we would also like to say that we will stand beside Iyasu Berhe family for anything. Moreover, we promise to work hard for the unity of Tigreans and will continue all his good works so as to reach their final goals.

Dear Iyasu Berhe, we will be missing you forever but you are in the mind of all of us and you will be remembered for ever.

May God rest his soul in Heaven.
