LETTER OF CONDOLENCES

Ethiopian National Consensus forum /U.K./

The Ethiopian National consensus forum in the United Kingdom is deeply saddened by the untimely death of his excellence prime minister Meles Zenawi. His Excellency had devoted most of his time and knowledge good governance to reign in Ethiopia and in the entire Africa.

His Excellency Prime Minister was called a prominent, young, visionary and progressive leader of the generation. He relentlessly had indulged him self to make poverty history in Ethiopia. .

His Excellency Prime Minister Meles Zenawi was a courageous, ambitious and had shaped the new Ethiopia to be subtle, peaceful and

prosperous country. His ambition was immense and had an aspiration our country to be in line with the new economically developed countries.

He was working relentlessly the people of Ethiopia and the neighbouring countries to live in harmony and was a farsighted and determined person at large.

The executive committee of ENCF and all members vow to do all the best our prime minister's legacy and dream to have continuity and reach at its climax.

The Ethiopia National consensus forum executive committee and its members express their desire the people of Ethiopia and members of the prime minister family to have comfort and strength in handling this devastating grief of the Ethiopian people and the nation at large..
