Our Condolence on passing of our brother PM Meles Zenawi,

Since we heard the death of our leader from the media of ETV and Aiga Forum, we did not want to believe our eyes nor our ears. Still we think we are dreaming and wanted to wake up from our nightmare of worst dream. When we tuned day and night to ETV and Aiga Forum we are trying to balance our life and want to believe which is difficult to believe the death of our beloved leader of Ethiopia and at large leader of Africa.

We want to express our condolence to all peace loving Ethiopians and his wife Azeb and his children. At the same time we would like to thank ETV and Aiga Forum for broadcasting his works during his leadership and his plans in to the future. His strength, agility and genius are undisputable and will be missed by many including us. We have learnt many of his works from your programs; please continue to show his works on your network and Aiga Forum, because of some wrong information, many Diasporas have not clues about his works, big heart and love to all people.

Even though his departure this early is hard to all of us, the love shared and expressed by all Ethiopian has given to us some relief and a psychological rest of mind. All Ethiopian showed and expressed their true love to our brother PM Meles Zenawi.

Now we have many things to carry on the dream of our beloved brother PM Meles Zenawi. We all have to do all unfinished businesses and the plans he put forward. We have to throw our help to the present leaders of our country, Ethiopia. Our leaders have to respect one another and show the world your commitments and determinations to take the country to the next level of world stage and stamp poverty once and for all. We have to stay vigilant against those who are the enemies our country, Ethiopia.

Our late leader had very clear messages and need to be implementing, and among our responsibilities are to agree and work together to achieve his goal, which are to eradicate poverty and to live in harmony and peace. These will make happy and proud brother PM Meles Zenawi when he watches us from heaven.

We would not dare to come up with enough words to write all about our late leader PM Meles Zenawi, we just would like to share the pain we have with the rest of Ethiopian people and to know everybody that he will live in our heart for ever and ever. God will put him in heaven with all Angels.

God bless our Brother Meles Zenawi and RIP.

Mulu Simagen & Mamay Seyoum
